

LEGACY
WHIRLPOOL®

BY MASTER SPAS

A HERITAGE OF QUALITY

A HERITAGE OF QUALITY

Luxury that will surprise you

Legacy Whirlpool® is a unique product that combines world-class quality, outstanding therapy and luxury amenities, all at a surprisingly affordable price.

What makes the Legacy line even more of a value is that it is manufactured by Master Spas, the award-winning global leader in luxury spas. In an independent survey, Master Spas had the highest quality score of any leading manufacturer.

With Legacy, you not only get quality and reliability but features you wouldn't expect, like the maintenance free DuraMaster Premium™ polymer skirt, LED waterline lighting* and even a backlit waterfall*. Legacy Whirlpool is the perfect spa for your budget.

*On select models.

Relax. It's your moment to revive and rejuvenate.

HYDROTHERAPY JET

Power away the day's stress with perfectly positioned hydrotherapy jets. Many jets are fully adjustable, which means your massage can be customized from a nice gentle touch to a maximum muscle-kneading force.

ENERGY EFFICIENCY

Thanks to our stringent Master Crafted building method and foam insulation, our spas have energy efficiency built in so they're easy to own and easy to enjoy.

Here's how it works: When we apply the foam insulation system, it expands to 100 times its initial volume in seconds to insulate and air-seal the hot tub. The resulting blanket of soft foam insulation forms a continuous thermal barrier that eliminates cold spots and significantly reduces energy costs. A consistent, comfortable temperature is maintained inside the hot tub, while cold air is kept outside; preventing condensation, mold and mildew. Unlike urethane foam-based systems, which lose half their R value in as little as 2 years, this foam maintains its insulation value for the life of your Legacy Whirlpool. Every Legacy Whirlpool hot tub is built to not only meet but exceed any stringent energy efficiency regulations. All resulting in what really matters — a superior energy-efficient hot tub and savings for you and your monthly utility bill.

CASCADING WATERFALL

Enjoy the soothing sights and sounds of gently falling water with a cascading waterfall*.

LED LIGHTING

Most Legacy Whirlpool models come standard with a sophisticated waterline LED lighting system that lets you set the perfect mood with a rainbow of tranquil colors, all with the touch of a button.

*On select models.

THERAPY

Every Legacy model has ergonomically designed seating that cradles your body while up to 42 specially positioned, high performance jets combine with two* oversized pumps to provide you with pain-relieving, soul-soothing therapy.

CLEAN, PURE WATER

At Master Spas, we want you to spend more time enjoying your hot tub and less time taking care of it. That's why we developed the patent-pending EcoPur® Charge Master Core Technology water purification system — an exclusive filtration system that makes maintaining your hot tub's water easier. Using the same multi-stage filtration techniques as Mother Nature, EcoPur Charge relies on a unique blend of copper and zinc, which eliminates most microorganisms and removes heavy metals from the water. This results in sparkling water that feels softer and doesn't have the harsh chemical smells associated with common systems.

*On select models.

ACCLAIM

94" x 94" x 36"	Cascade Waterfall
Dry Weight: 780 lbs Full Weight: 5,395 lbs	42 Stainless Steel Jets
420 Gallons	2 Pumps
Seats 6 Adults	240 V / 50 Amp

MASTER SPAS CARES

Master Spas is dedicated to helping people live life better. Our faith and beliefs guide us in partnering with local and national organizations for the greater good.

St. Jude Children's Research Hospital Leading the way the world understands, treats and defeats childhood cancer and other life-threatening diseases.

Michael Phelps Foundation Works to promote healthy, active lives, especially for children, primarily by expanding the opportunities for participation in the sport of swimming. Programs provide a learn-to-swim, healthy living, and goal-setting curriculum worldwide through the Boys and Girls Club of America and Special Olympics International.

Lupus Foundation of America Works to improve the quality of life for people living with lupus through research, advocacy, and support. Lupus is a complex disease affecting more than 1.5 million Americans that requires a comprehensive strategy.

Michael J. Fox Foundation Dedicated to finding a cure for Parkinson's disease and to ensuring the development of improved therapies.

Tunnel to Towers Foundation Helps families of fallen service members and first responders by providing mortgage-free housing. Tunnel to Towers builds custom-designed smart homes for catastrophically injured veterans and first responders. The foundation is also committed to eradicating veteran homelessness.

Vera Bradley Foundation A driving force in the fight against breast cancer, the foundation helps fund research to find a cure and improve the therapies for the most difficult-to-treat types of breast cancer, helping women affected by the disease.
